
Databases

— Ewa Dziedzic-Elliott —

Why do we need databases?

- ❖ Content is:
 - developed based on schools curricula
 - properly evaluated
 - up to date
 - is not available outside of the databases- it's not free
- ❖ The publishers/hosts:
 - provide their sources
 - employ professionals to evaluate their information
 - tools easy to navigate and intuitive

How are they different from internet resources?

- ❖ You can apply limiters (date, language, publisher, type of source)
- ❖ You can connect with Google Drive, Google Classroom, email or download your findings
- ❖ You can work on the same article as a team (Gale resources)
- ❖ You can use their tutorials and tips for writing essays and research papers, even chat with a librarian
- ❖ You can trust the content

LHS Databases

Ltps.org

- ★ select school
- ★ select Lawrence High School
- ★ select Our School
- ★ select Library Media Center

LHS Virtual Library

Ltps.org

- ★ select school
- ★ select Lawrence High School
- ★ select Our School
- ★ select Library Media Center
- ★ On the left hand side select Virtual Library
