Lawrence High School's
AP Computer Science A
2022 Jumpstart Assignment

To incoming AP Computer Science Students,

To be best prepared for your AP Computer Science course, you will complete a required Summer Jumpstart Assignment, which you will **submit no later than midnight September 25, 2022. Your instructor will announce the date in class.** This assignment will be graded and included as a grade for the first marking period. You will be able to access this assignment through the ltps.org district website and/or classroom.google.com. If you are a new student to Lawrence, you will receive a school .info account in September, and completion timelines will be adjusted as needed.

This material needs to be fresh and current when school starts. We recommend that you begin and work on this Summer JumpStart assignment throughout the month of August and establish consistent study habits to be fluent with the content included in this assignment. If you complete the assignment before August, you should revisit the material and assignment before school begins.

Google Classroom:
- Go to www.classroom.google.com
- **Sign into your school .info account**
- Enter access code wcbkcvu

This google classroom has been established in order to provide you, the students, with support as a group. If you are struggling with concepts/material, there is a blog to post questions to one another. In addition, you have the resources listed below, and you can search using the internet. Please be sure all of the work that you submit is your own original work.

Resources:
    For additional examples and support you can reference any of the sites listed below and search the skill/concept.

- Online Textbook: https://codehs.gitbooks.io/apjava/content/
- You Tube.com or Teacher Tube.com
- Codeacademy.com

Assignment Directions:
- Log onto www.codehs.com
- Create an account using your **.info email address.** *You will use this program and account all school year.*
- Click on join class on the left side column and enter the class code : **50CD6**
- Click on Unit 2: *Primitive Data Types*
- You must complete all of Primitive Data Types assignments which includes videos, activities, quizzes and test(s).

- o As you complete activity questions the icon will turn green if it is correct, and yellow if you tried it but your response is not correct
- o You will be able to submit and check your activity answers as many times as you would like for the activities.
- o **Quiz and test questions will only allow ONE submission.**

Scoring/Grading:
- The AP Computer Summer JumpStart Assignment is worth a homework/classwork grade
- There will be a quiz on the material as well. The instructor will announce the exact date for the assessment, which will be recorded in the grading system for the first marking period.
- **The Summer Assignment is due no later than midnight, September 25, 2022.** The instructor will announce the due date in class.

Good luck with the assignment and enjoy your summer!!!!
