To incoming AP Computer Science Students,

To be best prepared for your AP Computer Science Principles course, you will complete a summer review assignment, which you will **submit no later than midnight, September 25, 2022**. The instructor will announce the exact date in class. This assignment will be graded and entered into the grading system for the first marking period. You will be able to access this assignment through ltps.org district website and/or classroom.google.com. If you are a new student to Lawrence High, you will be issued a .info account in September, and the completion timeline adjusted as needed.

This material needs to be fresh and current when school starts. We recommend that you begin and work on this Summer JumpStart assignment throughout the month of August and establish consistent study habits to be fluent with the content included in this assignment. If you complete the assignment before August, you should revisit the material and assignment before school begins.

Google Classroom:

- Go to www.classroom.google.com
- **If needed, use your .info school email account**
- Sign into your .info account.
- Enter access code **nvi5p42**

This google classroom has been established to provide you, the students, with group support system. If you are struggling with concepts/material, there is an option to post questions to one another. In addition, you have the resources listed below, and you can search using the internet. Please be sure that all of the work that you submit is your own original work.

Assignment Directions:

- Log onto www.codehs.com
- **Create an account using your .info email address. You will use this program and account all school year.**
- Click on join class on the left side column and enter the class code **0AAAC**
- Click on Unit 1: *The Internet*.
- You must complete the 12 lessons, which includes videos, activities, quizzes and tests for the Internet unit.
 - As you complete activity questions, the icon will turn green if your answer is correct and yellow if you tried it but your answer is incorrect.
 - You will be able to submit and check your answers as many times as you would like for the activities.
 - **The quiz and test will only allow ONE submission.**

Scoring/Grading:

- The AP Computer Science Principles Summer Assignment is a homework/classwork grade.
- There will be a quiz on this material early in the school year. The instructor will share the exact date.
