The AP Spanish Language and Culture Exam (May 2023) is designed to test your Spanish skills and abilities. The exam will test all of the major language skills: listening, reading

Comprehension, speaking, and writing, in addition to general cultural knowledge of the Hispanic World.

Rationale for Summer Assignments

Students enrolled in AP Spanish are required to complete the summer assignment prior to the start of class in August. The assignments integrate the use of technology while maintaining the integrity of language acquisition through real-life experiences. Summer assignments have been selected to continue the development of more advanced communication skills in listening, speaking, reading, and writing.

General Directions:

Read the assignment descriptions carefully. Each assignment has some required activities. You may enjoy watching videos or television programs with other AP Spanish students and discussing the activities and your opinions are encouraged. However, your work is still yours, not the other students'. You may have the same conversations but your logs will be different, since each one of you will report what you learned and talked during the conversations. You are required to abide by the honor code that forbids cheating, lying, and stealing both within the academic world and as members of the general society. In other words, I expect that you complete all assignments on your own, without the use of a person or translator. Your work should be representative of what you are capable of doing using all class notes and grammar learned.

This work is to assess your skills upon starting the new school year. You will receive a test grade for this work. This is due on the first day of school.

NOTE: These summer assignments will not take too much time each week, but the work should be spread out throughout the summer. Cramming does not work with any language.
